My NET WORTHWHILE™ is showing clients how insurance can be an amazing tool to not only protect assets but also act as a support during stressful life events.

Ashley's grandfather founded an independent insurance agency almost seventy years ago where she began her career working alongside her family. Her admiration for her grandfather, one of her heroes, inspired her to continue in the business. As a property and casualty advisor on SignatureFD's solutions team, Ashley enjoys helping clients protect themselves, their families, and their property.

With extensive experience with high net worth clients, Ashley works with advisors and clients to anticipate needs, know the right questions to ask and effectively manage the insurance underwriting process. Prior to SignatureFD, Ashley worked at Yates Insurance, a large local independent agent, as a private risk advisor. Other past positions include property and casualty producer at Snellings Walters Insurance Agency and research and sales assistant at Sanford C. Bernstein and Co. in New York.

Ashley graduated from the University of Georgia where she earned a Bachelor of Arts in History and minored in French. She is a member of Atlanta's Women's Finance Group and member and volunteer at St. Anne's Episcopal Church.

In her spare time, Ashley enjoys running, reading and her family.
