My Net Worthwhile® is thinking outside the box while staying inside the lines.

Jen believes that anything worth doing is worth being FUN! Motivated by creativity, she is always looking for a unique way to add more color to the workday.

Jen is a career client service specialist and a certified Mindful Leader. Learning the “why” of our team and clients inspires her to create custom experiences for them. Jen handles a little bit of everything at SignatureFD. Her goal with anything she does is to make people feel special, uniquely valued, and that they belong.

Jen’s career started with luxury cosmetic sales and a stint as a plastic surgery coordinator. She understands that people can go through the exact same things and have very different experiences. Jen aims to meet each person where they are with a custom approach based on their unique view. This unique skill set, coupled with a passion for wellness and a unique approach to engagement, helps to fuel the incredible culture at SignatureFD.

Jen is a fish and coral enthusiast who loves volunteer work. If she is not in the office, you can probably find her someplace sunny in the deep blue, breathing compressed air, as she is an avid SCUBA diver. She is passionate about preserving the ocean and often participates in river and ocean clean-up projects. She volunteers with the Reef Renewal International as they study ways to recover the reefs globally through research, monitoring, education, and coral out-planting. Additionally, she spearheads SignatureFD Generosity days, during which the team serves to benefit various local and global charities.
