My Net Worthwhile® is helping to bring people and technology together.

Moc works with SignatureFD's technology team to ensure that all technology infrastructure performs optimally. With deep expertise in data and enterprise networks of large companies, he is well-versed in network and systems administration and is highly qualified to provide the support needed to keep the firm up and running.

Moc's hard work and experience have earned him certifications with Microsoft, Cisco, and CompTIA. His attention to detail and determination have earned him recognition and awards in information technology.

Before joining SignatureFD, Moc worked with Frazier & Deeter as a systems administrator. Previously, he spent 13 years in similar roles for two large Atlanta-area general contractors. Moc graduated Magna Cum Laude from Georgia State University with a CIS (Computer Information Systems) degree.

Moc is actively engaged in the children's ministry at his church, dedicating time every other week to teaching a class. He also volunteers with various organizations during his spare time, embodying the spirit of community service.
